# HAPPEN

HAPPEN is a primary school network which brings together education, health and research. It aims to develop a better understanding of school needs and provides an opportunity for you to be able to target specific areas of health and wellbeing under the greater autonomy given by the new school curriculum in Wales.

The HAPPEN Survey and the school report you receive can act as a needs analysis, allowing your curriculum delivery to be tailored to the needs of your learners. This will enable pupils to become ambitious, capable, enterprising, informed, healthy and confident.

HAPPEN presents the opportunity for pupils to learn and make informed decisions about different aspects of health and wellbeing. We encourage the use of the report in school programmes such as Pupil Voice to allow children to be ambitious and creative to improve their health.

By taking part in the HAPPEN Survey, teachers and pupils are empowered to make meaningful changes by gaining a better understanding of pupil's **physical, psychological, emotional and social health**.

Schools can take part in the survey throughout the academic year to provide snapshots, track change and evaluate practice. Having completed the survey, schools receive an individual school report aligned with the new curriculum showing the overall picture of health and wellbeing in the school.

Results from your school report will enable your pupils to become:

-  Ambitious, capable learners who are ready to learn
-  Enterprising, creative contributors who ready to play a full part in life
-  Ethical, informed citizens who are ready to be citizens of the world
-  Healthy, confident individuals who are ready to lead fulfilling lives
